Notification to Patient

During your course of treatment with CACC Physical Therapy you may require splinting, orthotics or other DME (durable medical equipment; supplies) that are not a covered benefit under your insurance plan. If you receive any supplies, they will need to be paid for at the time of service. We will bill the item to your insurance for you. In the event that your insurance pays all or a portion of the cost, we will refund that amount to you. If you wish to receive your supply item from a contracted provider, you can call the number on the back of your insurance card and ask who is contracted with your plan to provide the items you need.
